THE DIFFERENCE

Prime Angus of Connaught, to "keep" a son had just been born, "that's a story of a leucophaea leucophaea" who thought to make a big thing of his son's name, but the son's name was the same as the name of the alcohol on public life.

He exhibited a couple of specimens in pots.

"To see this healthy-looking son," he said, pointing to one of the pots, "I'll have been warned in the usual way. But this other specimen, which looks unwell, has been given alcohol in its water. There's a fine object lesson, isn't it?"

THE DIFFERENCE

Prime Angus of Connaught, to "keep" a son had just been born, "that's a story of a leucophaea leucophaea" who thought to make a big thing of his son's name, but the son's name was the same as the name of the alcohol on public life.

He exhibited a couple of specimens in pots.

"To see this healthy-looking son," he said, pointing to one of the pots, "I'll have been warned in the usual way. But this other specimen, which looks unwell, has been given alcohol in its water. There's a fine object lesson, isn't it?"

You certainly want it right; smart, graceful, perfect-fitting, and of a fabric and style that are in good taste.

Therefore—make a note of it to-day, that you'll come to this House of Better Clothes to see the garments that so many men take pleasure in wearing and speak so well of.

If hard to fit, then we'll be particularly pleased to meet you.

NE MILK BOTTLES IN BOTTLES. Milk bottles should be used to store milk, for it is a common mistake to use a milk can, for as they are usually made of tin, they are liable to rust, and this rust is dangerous to the health of the person who drinks the milk. The best thing to do in such circumstances is to provide one's own milk bottles or covered glass bottles which the milkman may pour the milk from.

A RIGHT SUIT!

The first thing for a man to do, if he cares for a "Full Suit" that is distinctive and refined, is to select the store in which to buy it.

Of course, you're far from believing that "a suit is just a suit," and that you can drop in most anywhere and get out that is satisfactory.

Clothes have a personality to them, just as well as men have.

You certainly want it right; smart, graceful, perfect-fitting, and of a fabric and style that are in good taste.

Therefore—make a note of it to-day, that you'll come to this House of Better Clothes to see the garments that so many men take pleasure in wearing and speak so well of.

If hard to fit, then we'll be particularly pleased to meet you.

BOY OF EDUCATION IN REGULAR SESSION

Business of a Routine Nature Transferred—A Record Number of Pupils at the High School

A regular meeting of the Board of Education was held last evening and considerable business was transacted. The members present were: Col. Patton, chairman; Messrs. A. K. Bailey, T. O'Connell, P. S. Deane, J. E. Galt, F. Harrison, J. B. Ross, T. E. Kitchinson, B. Malley, A. Meigs, A. J. McCredie, S. E. Moore, C. E. M. Reid, F. C. Sharpe and L. R. Terrell.

The minutes of the last meeting were read and adopted.

From Col. Patton, chairman, in reference to two teachers who were detained in the odd quarry owing to the war and other matters pertaining to the Board.

A report of a satisfactory nature in reference to the inspection of hotels in Queen Alexandra, Queen Victoria, Queen Mary and the High School, was presented.

From Mr. E. C. Tyndal, a teacher, thanking the Board for leave of absence if necessary in case he was compelled to leave on account of the war.

From Mrs. W. A. Woodley, asking for the case of the assembly room at Queen Mary School for the meeting of the West Belleville Women's Institute.

REPORTS.

The Finance Committee recommended the payment of a number of accounts.

From Inspector H. J. Clarke in reference to school re-opening. His report was encouraging in regard to the promotion from one class to another.

A report from Principal MacKenzie of the High School, showed that at the opening of the school 250 pupils were enrolled, a record attendance. The members of the staff were doing good work.

The Board went into committee on the report of Mr. Malley in the chair.

The School Management Committee report recommended that no action be taken on the application of Miss Gould and Miss Lally for increase of salary.

The report was adopted.

A recommendation from the Finance Committee and the Finance Committee that a board fence be erected on the north side of Queen Mary School grounds was adopted.

A recommendation that turf be placed on certain roads at Queen Mary School at a cost not to exceed \$500 was adopted.

The High School committee recommended the continuance of the present curriculum at a salary of \$20 per month.

This recommendation was adopted.

A recommendation from the Printing and Supplies Committee in reference to procuring pencil sharpeners was referred to the chairman of the committee with power to act.

A request from the ladies of the Red Cross in reference to allowing the children of the school to contribute 50 cents a month for the cause was adopted after some discussion, it being understood that the children were to save the money and no soliciting to be made to the children during school hours.

The committee read and reported. The report was received and adopted.

UNFINISHED BUSINESS.

Mr. Deane moved as the adjournment of the Board in reference to the disposal of the old school on the Carlton Road, a piece of property owned by the Board and situated on Station Street, and also the old No. 2 school.

Col. Patton did not wish to force the selling of the property at present as some of the buildings might be used as school buildings when it is established in the city.

Mr. Deane asked that a number of children at Green Street should be taken in charge in domestic science, but

the distance between that school and the school building where the domestic science was established was too great, and the classes were already much overcrowded. A number could be accommodated at Albert College.

Mr. Deane asked that the classes be taken in charge at the school building where domestic science is taught.

Col. Patton was authorized on behalf of the Board to send a message to the volunteers of Queen Mary, Sharpe and Harris before they left the camp at Yaberville.

Chairman Patton reported that the house guard had not sent any of the children belonging to the school, which the Board had given them the privilege of doing if necessary.

Mr. A. A. Gardner, war prior, with other duties, that of treasury officer, was requested to report to the Board as to what number of children were treated.

The Board adjourned.

THE KAISER WILHELM II.

"He hath put forth his hands against such as he loveth, because his hands have broken his covenant." The words of the prophet Isaiah are more than true, but war was in his heart; his words were softer than oil, yet were they drawn swords.

Then, O God, shall bring them down into the pit of destruction and scatter every one shall not live out half their days." Psalm Lxv.

IKH in the Toronto Sunday World describes him as follows:

This is what a German Kaiser looked like on the walls of a cathedral in the city of Cologne. He was not so much as a man, but as a ruler, he was a man of power and authority. He was a man of power and authority. He was a man of power and authority.

On one occasion, when as a student, the future emperor got mentioned in the news which had been printed in the English language. But did it not read that the Kaiser was a man of power and authority?

He was a man of power and authority. He was a man of power and authority. He was a man of power and authority.

He was a man of power and authority. He was a man of power and authority. He was a man of power and authority.

He was a man of power and authority. He was a man of power and authority. He was a man of power and authority.

He was a man of power and authority. He was a man of power and authority. He was a man of power and authority.

He was a man of power and authority. He was a man of power and authority. He was a man of power and authority.

He was a man of power and authority. He was a man of power and authority. He was a man of power and authority.

The latest and biggest McLaughlin Announcement

LAST year we gave Canada the McLaughlin "Six"—a record car in point of appearance, comfort and mechanical efficiency—the greatest economizer of running expense among the high class cars—the only luxurious "Six" that is at the same time economical. That offering turned old values upside down. That car was unapproached in the beauty of its pure "stream" lines. It was marvellous value—better than we had ever offered. Motorists everywhere saw this.

What followed was inevitable. For 1915, hundreds of Canadians are demanding the McLaughlin "Six." This means building many more cars—and with the rise in output down comes the price.

The McLaughlin "Six"—1915—with the year's advances in mechanical and price refinements will be sold for \$2,250. This is an announcement without parallel in the history of this company.

Here follows a sure measure of value. Check other Canadian offerings by this new automobile standard. Between the lines, "read in" McLaughlin past performance—and McLaughlin years of stability—remember that this car is guaranteed to go 17 miles on a gallon of gasoline.

If you believe—as you must—that here you have found unheard-of value, think of the magnificent McLaughlin Sixes you have seen about town. Remember that this is the McLaughlin car with pure stream line, with commodious seating—and that it now comes for \$2,250. See it again at the McLaughlin Garage.

A NEIGHBOURLY EXAMPLE

The 14th Regiment of Picton drills twice a week and has full regular exercises on Monday night. The ranks are filled with men becoming efficient and ready for the drill of the Empire. They are cheered by the citizens at every corner and are doing splendid work at the present. What is our Regiment as a Regiment? It should be the active representative of public spirit and exertion. It should be a force that is not a lack of public spirit nor a lack of public spirit nor a lack of public spirit.

Could make many ways faster than this. It is a man's duty to be an opportunity after grasping it.

BRITISH ADMIRALTY

MAKES STATEMENT
LONDON, Sept. 21.—The British Admiralty has issued a formal reply to a statement, purportedly by the German Admiralty, to the effect that British officers fired on derelict German sailors after the naval engagement of Heligoland; that a British ship was thrown into a libelous, containing German charges of ship kill.

The Admiralty would charge the ship was thrown, but capture the circumstances as follows:

"Every effort was made to save life in German vessels of the British class, appeared on the scene and opened fire on British destroyers and their small boats. The destroyers were forced to retire in order to avoid destruction." The British, however, were not fired on, but were in the German position, nearly all of the German vessels were sunk.
